CAROLANN WICKS, P.E.
SECRETARY

January 28, 2010

Mr. Frank Warnock, President
Bike Delaware
105 Medley Drive
Newark, DE 19713

Dear Mr. Warnock:

Thank you for your letter dated January 1, 2010, expressing concerns and questions about the changes to the Manual on Traffic Control Devices (MUTCD).

Engineers and planners at the Delaware Department of Transportation (DelDOT) are in the process of evaluating the entire document to assess the changes that have occurred between it and the previous version.

To study the MUTCD, DelDOT holds a working group meeting every week as they study significant changes. It is a slow process, but the importance of the regulations require that we thoroughly examine them. As we move forward in the process of implementing the changes, we will keep you and Bike Delaware members informed by sending periodic updates to Bike Delaware, as well as the Delaware Bicycle Council.

Thank you again for your letter.

Sincerely,

Carolann Wicks
Secretary
