

# LAUREL!

## Help build a BETTER BLOCK

You can help transform a city block into a clean, bike friendly district, complete with pop-up businesses, landscaping, parks, outdoor seating, art, and entertainment!

The Better Block project acts as a living blueprint so that the entire community is part of planning the future development of the area.

Residents, community leaders, artists, planners, clergy, teachers, students, and businesses are all invited to join our Community Walk & Talk to experience the community in a new way.

Join us at the Better Block Project Workshop the following day to learn how to build a Better Block.
